

About Pete Nater

As many of you might know. I've been playing in bands for 5 decades. From the early 70's as a 14 year old, still in Junior High School in The Bronx, to where I am now, many years later. So far, I have many many great memories. God willing, I'll have many more to come.

God willing, I'll have more opportunities to play with legends, masters and even part-time musicians who do it for the love of the music.
